PROFESSIONAL SUMMARY

Computer Science graduate (with distinction) and full-stack developer with hands-on experience across JavaScript, React, Node.js, Python, Java, C/C++, SQL, and MongoDB. Currently building AI-integrated web features as a full-stack developer intern, with additional project experience spanning database-backed systems, search functionality, and workflow automation. Fluent in English and Mandarin; a fast self-directed learner seeking remote software development opportunities.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, C++, SQL, HTML, CSS; working knowledge of C#, TypeScript, Go, Rust, Kotlin, Swift, PHP, Ruby, Scheme, and Prolog

Web / App Development: React, Next.js, Node.js, Express, REST APIs, React Native, Django, ASP.NET Core, WordPress, Shopify, MERN stack

Databases: PostgreSQL, SQLite, MongoDB, Mongoose, Airtable

Tools / Platforms: GitHub, VS Code, Visual Studio, Qt Creator, Expo, Android Studio, Xcode, AWS, Make.com, Figma, Slack, Zoom, Microsoft Office, Google Workspace, Miro, Scribe

AI / Automation: Prompt engineering, ChatGPT, Codex, GitHub Copilot, Gemini, Claude Skills/Routines, RAG concepts, AI-assisted development

Practices: CI/CD, Agile, Scrum

EXPERIENCE

AI Full Stack Application Developer Intern, *Interact Health Pro*

May 2026 – Present

- Develop and support AI-integrated full-stack application features using modern web development practices.
- Collaborate cross-functionally through Slack, Zoom, CRM systems, and shared documentation workflows to keep feature work aligned with team priorities.
- Apply AI-assisted development, prompt engineering, and automation tooling to speed up implementation and troubleshooting.

Grocery Clerk, *Loblaws*

May 2023 – Aug 2025

- Restocked products, maintained shelf organization, and ensured accurate product presentation in a high-volume retail environment.
- Balanced part-time work with a full Computer Science course load, building reliability, time management, and consistency.

Grocery Clerk, *Giant Tiger*

May 2023 – Jun 2023

- Delivered customer service and managed product placement to maintain store readiness and accessibility.

Frozen Department Clerk, *Provigo*

Nov 2022 – Apr 2023

- Managed freezer inventory and restocking while upholding department organization and cleanliness standards.

PROJECTS

Portfolio Website (JavaScript, HTML, CSS) — Built and published a personal developer portfolio showcasing projects and technical background. [View](#)

Freelance Startup Website — Designed and delivered a client website for a startup. [View](#)

Daily Task Tracker (JavaScript, HTML, CSS, SQL) — Built a database-backed task tracking application for recording and organizing daily work.

Stall Booking Application (C++, Qt Creator, SQL) — Developed a desktop booking system with database-backed storage and user-facing workflows.

Gym Membership Management Database (PostgreSQL, Java) — Designed and implemented a membership management system using relational database principles.

Basic Search Engine (JavaScript, HTML, CSS, MongoDB) — Built a simple search application using a web interface and document-oriented data storage.

EDUCATION

Bachelor of Computer Science, Minor in Economics, with Distinction, Carleton University

May 2026

High School Diploma, Agincourt Collegiate Institute

LANGUAGES & AVAILABILITY

Languages: Fluent in English and Mandarin; proficient reading in French

Availability: Available immediately; open to overtime and flexible scheduling; remote work preferred
